Events

Whether it's a corporate function, wedding or special occasion, let us create and organise an unforgettable event tailored to your requirements.

Our sustainable practice

We know that we have a responsibility to protect our environment and to take a considered approach when creating our products. We are committed to do better, working to centre responsible practices that lessen our environmental impact at the heart of our company.

Kindness is woven through the fabric of everything we do: from recycled and recyclable packaging; our commitment to making products in facilities that celebrate the use of renewable energy and seek to reduce emissions; better transparency around our responsibly sourced ingredients; and respect for local communities and the environment.

We are constantly reviewing our sustainability standards to ensure they are ever evolving. And, as a company with a proud British heritage, we are determined to deepen our commitment to Crafted in Britain through our production and ingredient selection.

Our charity mission

We are committed to supporting mental health and the profoundly restorative effect that nature has for those living with painful personal challenges.

One in four people will be affected by mental health problems in their lifetime. Yet, it is still an underfunded and often unacknowledged illness. We want to break that taboo.

Our mission has always been to inspire, connect and uplift people through fragrance. And so, our work with mental health charities over the past decade is a natural evolution of this mission. To nurture the most vulnerable members of the community. To help people talk about their feelings. To create gardens where people can discover the restorative effects of nature.

Our bestselling scents

Lime Basil & Mandarin
Float away on a cool tropical breeze. Peppery basil and aromatic white thyme bring an unexpected twist to the scent of limes. A modern classic.

Pomegranate Noir
Daring sensuality, encapsulated in scent. Ruby-rich juices of exotic pomegranate, sparked with pink pepper and Casablanca lily. Warmed by temptingly smoky guaiacwood and patchouli.

Peony & Blush Suede
Peonies in voluptuous bloom, exquisitely fragile. Flirtatious with the juicy bite of red apple and the opulence of jasmine, rose and gillyflower. Mingling with the sensuality of soft, blush suede.

English Pear & Freesia
The sensuous freshness of just-ripe pears is wrapped in a bouquet of white freesias, and mellowed by amber, patchouli and woods. Luscious and golden.

Wood Sage & Sea Salt
Windswept walks along the beach, the air fresh with sea salt and the mineral scent of rugged cliffs. Mingling with the woody earthiness of sage.
